✓ DEDICATED CLOUD ARCHITECTURE ACTIVE

MariaDB Relational Database • AES-256 Cloud Encryption • Zero External Tracking

Database 100% Owned

01 • ZERO USER SEAT FEES

100% Private Sovereignty

Deployed on your private server. You own the code, database schema, and every client record. Zero monthly per-user rental fees forever.

02 • ALL-IN-ONE OPERATIONS

Consolidated Single Hub

Replaces 4 separate third-party software subscriptions. Combines Sales Pipeline, Invoicing, Staff Attendance, and Recruitment ATS in one place.

03 • ENTERPRISE CONTROL

Granular Team Permissions

Business owners maintain full visibility while sales reps only see their assigned deals. Junior staff cannot export or leak customer databases.

CORE MODULE 01

Visual Sales Pipeline & Deal Tracking

Capture client inquiries, allocate leads to executives, track deals through structured stages (Contacted → Demo → Proposal → Won), and log invoice payments.

CORE MODULE 02

Staff Directory & Daily Attendance

Monitor employee availability and daily punches (Present, Late, Half-Day, Absent, On-Field Visit) with role-based access control and automated executive summaries.

CORE MODULE 03

Recruitment & Applicant Tracking (ATS)

Manage internal job requisitions from Draft → Published → Closed. Screen applicant CVs through hiring stages (Applied → Screened → Interview → Hired).

CORE MODULE 04

Branded Careers Portal & Web Widget

Dedicated company careers portal with corporate branding, plus a 1-line script to embed live job openings directly on your main corporate website.

PR Marketing Ventures • B-903, Fairdeal House, C.G. Road, Navrangpura, Ahmedabad 380009

Executive Overview • Page 01 / 03

Engineered For Total Sales Control & Data Protection

How our custom CRM streamlines commercial execution, employee accountability, and recruitment while actively protecting your customer database.

MODULE 01 • SALES PIPELINE

DEAL VELOCITY

Inbound Lead Capture & Deal Tracking

Structured deal pipeline tracking customer inquiries from first touch to signed contracts and bank payment verification.

- **Visual Kanban Stages:** New → Contacted → Demo / Meeting → Proposal → Closed Won.
- **Deal Value Tracking:** Estimated ticket size, service requested, and assigned sales executive.
- **Closing Analytics:** Track conversion rates and monthly sales quotas per executive.

MODULE 02 • REVENUE LOGS

BILLING AUDIT

Sales Recording & Invoicing Management

Real-time transaction tracking connecting every closed sale to customer contact records, invoice numbers, and payment modes.

- **Payment Mode Tracking:** Bank Transfer, RTGS, Cheque, and UPI transaction reference logging.
- **Invoice Integration:** Direct invoice number linking with payment receipt verification.
- **Revenue Dashboard:** Real-time total closed revenue vs monthly targets for business owners.

MODULE 03 • STAFF HRMS

ATTENDANCE LOG

Staff Directory & Daily Attendance

Eliminate proxy attendance and maintain operational discipline. Live visibility of employee punch-in times and field visits.

- **Status Punch Register:** Present, Late, Half-Day, Absent, and Client Site Visits.
- **Role-Based Access:** Differentiated views for Business Owner, Department Managers, and Staff.
- **Executive Daily Summary:** Automated daily attendance roll reports for payroll and operations.

MODULE 04 • RECRUITMENT ATS

HIRING FUNNEL

Job Openings & Candidate ATS

Run internal corporate hiring without expensive recruitment portal subscriptions. Manage vacancies and applicants in one hub.

- **Requisition Management:** Position title, department, salary budget, and vacancy status.
- **Candidate Tracking:** Applied → Screened → Technical Interview → Offered → Hired.
- **Embeddable Widget:** 1-line script embeds live job vacancies on your main corporate website.

BUILT-IN ENTERPRISE SECURITY ARCHITECTURE

Shield 01: Anti-Theft Masking

Customer phone numbers are masked on junior rep screens (+91 98250 *****). Reps dial via click-to-call but cannot copy client lists.

Shield 02: Export Lockdown

Bulk CSV and Excel data extraction rights are permanently restricted to business owners, preventing departing reps from stealing records.

Shield 03: Encrypted Database

AES-256 cloud encryption at rest and in transit, automatic session timeout guards, and automated daily encrypted database snapshots.

GROWTH SERVICES POWERED BY PR MARKETING VENTURES:

Performance Marketing

High-ROAS Google Ads & Meta lead funnels directly integrated into your CRM sales pipeline.

Enterprise & Local SEO

Google Maps 3-Pack and commercial keyword top rankings across Ahmedabad and Gujarat.

Custom Web Engineering

Sub-second Next.js 16 corporate websites with built-in inquiry capture and careers widget.

AI Search (GEO / AEO)

Optimizing your brand for top recommendations across ChatGPT, Google Gemini, and Perplexity.

Tailored System Editions. Zero Per-Seat User Taxes.

Select the exact operational capabilities required for your organization. Every edition includes private cloud deployment, full relational database ownership, and zero monthly recurring license fees.
